## EXECUTIVE SUMMARY

Informatics student at Politeknik Elektronika Negeri Surabaya with practical Fullstack Development experience. Skilled in building robust web applications using Laravel, React JS, ASP.NET, Tailwind CSS, and database management (MySQL, PostgreSQL). Proficient in MVC architecture, system optimization, industry-standard version control workflows, and Agile methodologies, aligning with Fullstack Developer Specialist requirements.

## TECHNICAL SKILLS

- Languages & Frameworks:** PHP, JavaScript, HTML/CSS, Laravel, ASP.NET, React JS, Tailwind CSS, Bootstrap, Java, C.
- Database & DevOps:** MySQL, PostgreSQL, Docker, Linux (Ubuntu, Arch/EndeavourOS), REST, HTTP.
- Tools & Workflows:** Git, GitHub (Industry-standard workflows: Issue tracking, Pull Requests, Semantic Commits), Agile Methodology.

## PROFESSIONAL EXPERIENCE

- PT Tranceformasi Indonesia | Fullstack Developer Intern | July 2023 - Nov 2023**
  - Built 95% of the backend architecture utilizing MVC patterns for "8dimensikepemimpinan", a human resource assessment platform, using Laravel, JavaScript, Tailwind CSS, and MySQL.
  - Engineered an automated PDF reporting system for 12-page assessments, optimizing file sizes by 66.7% (from 600 KB to 200 KB) without quality loss.
  - Deployed and maintained the system, successfully supporting 1,000+ active users within the first month of release.
- Freelance Project (Team Six Counterterrorism) | Fullstack Developer | Dec 2023 - Jan 2024**
  - Designed and implemented web pages and backend architecture utilizing Laravel, Tailwind CSS, JavaScript, and MySQL.
  - Developed an anti-cheating system utilizing Laravel Sessions and conducted comprehensive bug testing.
  - Created automated tracking and reporting systems integrated into the administrator dashboard.

## COMMUNITY & INVOLVEMENT

- SoftDev UKM (Politeknik Elektronika Negeri Surabaya) | Developer | 2024 - Present**
  - Currently developing a Montessori-inspired educational application aimed at improving cognitive engagement, utilizing fullstack development practices and acting as the primary technical lead.
- Chronoscraft Community | Developer | Jan 2025 - Present**
  - Engineered a reusable, infinitely nested comment reply system mirroring Reddit's architecture.

## EDUCATION & ACHIEVEMENTS

- Politeknik Elektronika Negeri Surabaya (PENS) | 2024 - Present**
  - Education:** Informatics Major
    - Programs: Product Based Learning (PDBL) applying Agile principles to develop software products;
    - INTENSE Scholarship (Taiwan) recipient undertaking integrated Mandarin language studies.
    - Coursework: PostgreSQL, React JS, Algorithm Analysis, Data Structures.
  - Awards:** Techfest - Artificial Intelligence (Ranked Top 1), issued by SMK Telkom Sidoarjo, Nov 2022.
  - Languages:** Indonesian (Native), English (TOEIC Score: 905), Mandarin (Current Study).
